

Endless

Storm clouds hung over the cold Endless fields all day

Hating souls

Coming back for more

Why... they'll never leave it alone

Until they raise the storm clouds

Back down town

Hey maybe they just don't know the way

Caging souls to show their Endless display

Endless... they're here to stay, they

Rule the sky, they

Just won't be denied

Hating souls

Bide their time alone

Oh... they'll never leave it alone

Won't atone for roaming

Back down town

Hey baby there's your Endless parade

Wage your war no more of Endless charade

They will never move on

Always plays their Endless

Death song of thunder rolling

Back down, going

Back down town

Hey baby there's your Endless parade

Raging souls so sore for refuge from the rain

Hey baby, you'll find your way in these Endless days

Storm clouds hung over,

the cold city streets all day

then they find their way

they always find their way... going, back down town
